WELCOME MESSAGE

Stephan Horvath

DIRECTOR

At SilkRoad Cooperation, we embrace a vibrant ethos of pioneering solutions and advisory excellence. Our commitment is to transcend traditional boundaries, fostering a dynamic ecosystem of impactful research, insightful consulting, and meaningful dialogue. We champion commercial diplomacy and sustainability, weaving a tapestry of knowledge exchange, trade innovation, and cultural collaboration on the Silk Road.

Our aspiration is to be recognized as a beacon of innovation, a digital-first boutique advisory revered for its expertise and ability to forge lasting, significant relationships. Our canvas is broad, spanning from Europe to Asia. Here, innovation isn't just a buzzword; it's collaboration, driving positive synergies.

With an entrepreneurial spirit as our compass, SRC dedicates itself to charting an Innovation Path that connects continents. Our mission is a commitment to blending creativity with science, efficiency with vision, to ignite dialogues that transcend borders. We're not just facilitating exchanges but nurturing the seeds of research, trade, and multicultural understanding.

As we stand at the crossroads of rapid evolution, our forte is understanding the intricate dance of demographics, technology, and global narratives. Join us as we embark on a journey not just to navigate but to shape the future, crafting a sustainable, innovative legacy through The Spirit of Collaboration. Together, Let's Innovate, Connect, and Transform.

We are a boutique advisory that provide a range of investor relations services tailored to the needs of companies with a high growth potential; undervalued, mostly unknown or under-covered.

Through the years, we have developed a strong network of investors, entrepreneurs, higher education institutions and semi-governmental institutions.

ABOUT SRC

Incorporated in Hong Kong, SilkRoad Cooperation Ltd. is a boutique advisory with an "always on" system tailored to serve the specific needs and goals of our clients.

Our vision is to be renowned along the Silk Road countries as a leading boutique advisory, cultivating innovative and collaborative synergies across pivotal regions, while our mission focuses on catalysing innovation and connectivity between Europe and RCEP countries through a fusion of creativity, science, and effective communication.

Our unique selling proposition lies in our capacity to effectively address complex, complicated and connected challenges. We are leveraging a bespoke blend of cultural intelligence and technical expertise, we craft tailor-made strategies for ground-breaking innovations that transcend traditional barriers, at the same time fostering sustainable partnerships in the heart of the Silk Road corridor.

WORLD CLASS PARTNERS

CONNECTING KNOWLEDGE

In a connected world, progress is driven by 'Connecting Knowledge', this sharing insights lead to 'Igniting Innovation' and 'Inspiring Ideation'. This process leads to 'Accelerating Connections' to support innovative concepts and positively impact society.

Together, these activities create a cycle of advancement and positive change.

“We are in the business of crafting success for our clients and partners by unwavering support and commitment to their goals despite potential complexities or challenges.”

OUR COMPETENCIES

We have the capacity to effectively address complex, complicated and connected challenges.

With our international networks, our background in strategy management and our track record in implementation and execution, we have the ability and the network to create sustainable value by turning ideas into innovations.

HOW WE WORK

We bring an entirely new perspective to integrating advisory, research, data and international pixie dust to generate more of what matters: Results.

We, at SilkRoad, have an "always on" system, tailored to serve the specific needs and goals of our clients. We have strong and trusted partnerships in Europe, Africa, The Middle East and Asia. We provide individual solutions and strategy executions with fully localised cultural adaption.

- Cultivating Partnerships
- Focusing on Business
- Harmonising Strategies
- Bridging Cultures

IGNITE

Our company is actively Cultivating Partnerships by actively seeking and nurturing relationships that span continents, focusing on shared goals and mutual growth.

In Focusing on Business, we prioritize actionable insights and strategic implementations that drive tangible results, ensuring that our partners are equipped to thrive in dynamic markets.

INTENSIFY

Through Harmonizing Strategies, we align diverse business practices and objectives into cohesive, impactful plans, leveraging the strengths of each region we operate in. Lastly, Bridging Cultures is central to our ethos; we facilitate a deep understanding and respect among diverse stakeholders, fostering an environment where collaboration is not just valued but celebrated, leading to innovative solutions and enriched business landscapes.

SELECTED PROJECTS 1/3

ENERGY

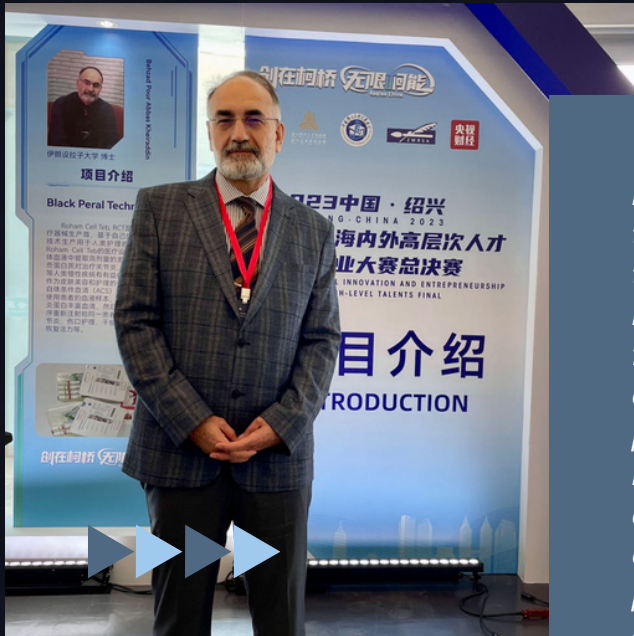

The Company is currently strategizing a pilot initiative in Hong Kong centered on Carbon Credits trading. The corporation is presenting a majority stake in the Special Purpose Vehicle (SPV), presenting a distinctive chance for investors to align themselves with its vision driven by ESG principles, thereby actively participating in the worldwide shift towards cleaner and more sustainable energy solutions.

We bring the best international projects in science and technology, offering a platform for ground-breaking ideas and innovations from around the world. Manta Aircraft acts as a beacon for global collaboration and exchange. With its revolutionary approach and cutting-edge technology, highlighting the importance of international cooperation in advancing scientific frontiers.

HI-TECH

SELECTED PROJECTS 2/3

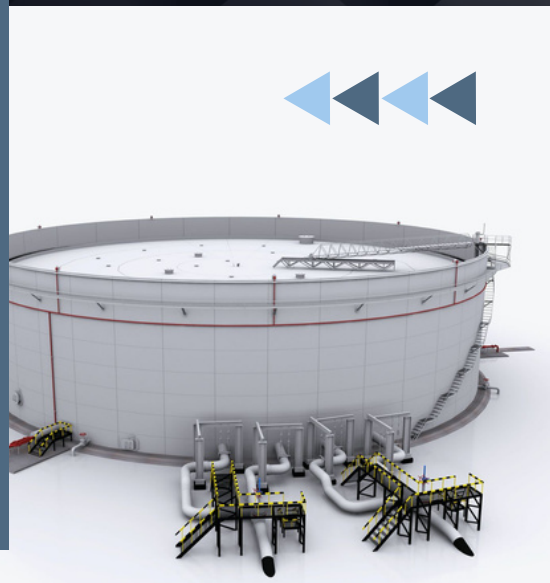

The Company has pioneered a biotech-driven medical device in the form of a syringe, designed to extract optimal quantities of beneficial proteins (growth factors) from both human and animal blood cells. The resultant product from our groundbreaking innovation has demonstrated clinical effectiveness and safety in promoting tissue regeneration across various chronic disorders in both humans and animals.

MED-TECH

Recognizing the significance of bolstering infrastructure initiatives, we leverage our proficiency and incorporate cutting-edge technologies to unite partners in fulfilling unique specifications and requirements. We assure you of our commitment to complete cooperation and transparency remains steadfast throughout the entire process.

INFRASTRUCTURE

SELECTED PROJECTS 3/3

MED-TECH

The “flight simulator” for sepsis treatment. The Company has developed the most advanced decision-support tool for intensive-care physicians in the treatment of septic patients. It is suitable for developing and introducing 2 different products to the market: Educational Tool: simulation of septic patients for training and further education. Decision-Support Tool: clinically approved tool in intensive care units.

CARBON CREDIT

The global voluntary carbon credits market is expected to experience rapid growth due to climate change awareness. The Company is leading the way by establishing a marketplace and virtual trading hub on the Hong Kong Stock Exchange (HKSE), revolutionizing sustainable investment with cross-border connections and asset anchoring.
